

RANGEmaster

UNRIVALLED PERFORMANCE

Why choose Rangemaster?

With a Rangemaster at the heart of the kitchen, the kitchen is always the heart of the home. That's why you'll find a Rangemaster in more homes than any other range cooker. So, why buy a Rangemaster? If being Britain's No.1 range cooker manufacturer isn't reason enough, read on to find out why we're in more homes than any other.

01

Style and choice.

We offer the biggest range of style, size and fuel types making it easy for you to find the perfect Rangemaster for your kitchen.

02

A family of over 1 million owners.

When you buy a Rangemaster, you're joining our family. Today, much has changed at Rangemaster but our principle of creating, beautiful, functional, market leading appliances built by hand in Royal Leamington Spa continues to underline our success.

03

The right ingredients.

It can take weeks to carefully craft a Rangemaster. The highest gauge steel is pressed, cut, washed, polished, and finally enamelled with Endurance finish. The frame is triple folded, creating a unique encasement for some of the highest quality components you'll find.

04

Quality and testing.

We test, re-test and test again, refining our products to offer the best results; we are passionate and proud of making the finest quality range cookers on the market.

05

When it comes to cooking; experience matters.

There's over 185 years of manufacturing excellence at our factory in Royal Leamington Spa. Generations of local families have all played their part in making Rangemaster the success it is today. Our people are passionate and proud of making the best Range cookers on the market. We call it... **Built from experience**

SPECIALIST features

* Not all features are included on every model. Please refer to product specifications.

Making your choice...

Whether you want a traditional style or the clean, sophisticated lines of something a little more contemporary, a Rangemaster range cooker will become the cornerstone of your kitchen. Distinctive, efficient, highly versatile and made to our exacting standards, every Rangemaster is designed to make cooking a pleasure, not a chore.

GRIDDLE

Made from robust cast aluminium, the griddle plate sits snugly on top of the gas hob, when required. The flat plate is ideal for cooking bacon and French toast, while the grooved plate provides fat drainage, offering a healthier way to sear steaks, burgers and fish.

TEPPANYAKI GRIDDLE

Whether you're feeding the family or entertaining friends, our handy Warming Zone will keep food warm prior to serving. Perfect for sauces, starters and soups, it reaches a maximum temperature of up to 70°C.

NON SCRATCH ENAMEL

Our Endurance™ finish is eco friendly, durable and will last for years to come. On our range cookers we only use environmentally-friendly, top-quality paints and enamels supplied by the global leader in the field, and applied at our Factory in Leamington Spa.

MULTI-ZONE

Choose between two ceramic 1.1kW cooking zones, or slot a durable non-stick griddle plate over the top to provide a healthy cooking surface.

MULTI-RING BURNER

Create authentic Asian cuisine on our Multi-ring burner, which can hold a specially designed wok cradle.

PYROLYTIC CLEANING

Turn the oven to this function and it literally cleans itself. The oven will heat up to 450°C, once it reaches this temperature, the oven carbonises all cooking residue to a fine ash; at the end of the cycle all that is left to do is simply wipe away the ash with a damp cloth.

GLIDE-OUT GRILL™

Includes a two-way trivet for two grilling depth options. Positioned on smooth-action telescopic runners, our Glide-out Grill™ does exactly that. Not only is it easier to check up on your food as it's grilling, but it's also safer as it reduces the risk of pulling the grill out too far.

BREAD PROVING DRAWER

Our bread proving drawer is a unique feature to range cooking, enabling you to rest and rise your dough before baking.

FOUR-WAY GRILL TRIVET

The improved grill offers even more cooking flexibility and capacity thanks to its deeper pan design. It also includes a four-way trivet for four grilling depth options to suit every type of dish.

LARGE OVEN CAPACITY

With a main fan oven of 79L the Rangemaster oven leads the way for size and performance. A rated across the board and ultra fast pre-heating with Rapid Response™ make Rangemaster ovens the largest and most efficient available.

NEW VSEAL™

Located on the exterior of the left door, this new feature draws air from a specialised reusable vacuum bag before then using heat to seal the bag shut. Vacuum sealing the bag dramatically limits air reaching foods, enabling them to stay fresher for longer.

Additionally, the vacuum-sealed food can be used for sous vide cooking, which has many benefits, including retention of flavour, better textures and healthier results. Each SXS Deluxe includes 30 reusable vacuum bags.

Freezer drawer - Independently controlled freezer zones

Ionizer™ - eliminates underlying odours
